

Commercial Radio Remains a Dominant Media with New Zealand Audiences.

- Southland - Survey 4 2018

MediaWorks CEO Michael Anderson says "Radio remains an incredibly relevant platform for Kiwi's everywhere. It is a medium with immense reach and is a great platform for local advertisers to build their brands in heartland New Zealand, with multiple touch points reaching audiences across all periods of the day. We continue to see the evolution of radio and with the introduction of podcasting it is maintaining high levels of relevance for all New Zealanders."

These sentiments are echoed by NZME CEO Michael Boggs who adds "The continued growth of radio during the year is great news for both listeners and advertisers. Radio is a medium that continues to evolve and it delivers outstanding content to inform, entertain and engage with our communities every day. Radio's ability to tell stories across multiple platforms continues to evolve."

Please note: The S4 2018 release does not include an S4 release for the Waikato region. The weather effect that took down the Ruru transmission tower continues to impact coverage in the area and as a result no surveys will occur in Waikato until 2019. All historic S3 2017 data for Waikato will be carried forward for the remaining 2018 results for both Total NZ and Waikato markets. The industry requests that all users ensure all data used for these markets is clearly identified within the source.
