n.b. The S4 2017 release does not include an S4 release for the Waikato region. In September an extreme localised weather event took down the Ruru transmission tower that a number of radio stations in the area broadcast from for a matter of days. It was clear from analysis this had a major short term effect on the market that is not indicative of normal listening patterns outside of the effected time. All historic S3 2017 data has been carried forward to S4 for the Waikato.

n.b. From S2 2017 the results for Network Breeze, Network Flava, Network Hokonui, Network Life FM, Network Magic, Network Mai, Network Mix and Network Tarana also includes markets with internet only listening. Network George FM also includes Christchurch, Waikato and Tauranga and markets with internet only listening.

n.b. The S4 2017 release does not include an S4 release for the Waikato region. In September an extreme localised weather event took down the Ruru transmission tower that a number of radio stations in the area broadcast from for a matter of days. It was clear from analysis this had a major short term effect on the market that is not indicative of normal listening patterns outside of the effected time. All historic S3 2017 data has been carried forward to S4 for the Waikato.

n.b. From S2 2017 the results for Network Breeze, Network Flava, Network Hokonui, Network Life FM, Network Magic, Network Mai, Network Mix and Network Tarana also includes markets with internet only listening. Network George FM also includes Christchurch, Waikato and Tauranga and markets with internet only listening.
