RNZ Combo: RNZ Concert or RNZ National

Station Share of All Radio: Station Share (%) is the percentage of listening during a given time period tuning to a particular station. Station Share in this report is based on all radio listening. Traditionally adding together share figures for all radio stations within a given time period sums to 100, however with only the share figures for RNZ stations shown in this report the shares will not add to 100.

It is important to note that these share figures cannot be compared with the Total NZ - Commercial Survey results, as the commercial share figures are based on listening to commercial radio stations only, whereas the shares reported here are based on listening to all radio stations.

All Radio Listeners: This is the number of weekly listeners to all commercial and non-commercial radio in the Total New Zealand Sample.
