

Nelson Commercial Radio Ratings - Survey 4 2022

The New Zealand Commercial Radio Industry released the S4 2022 GfK Radio Audience Data into the market today, and it shows over 3.6 million New Zealanders were listening to radio every week and almost 3.4 million of those listen to commercial radio stations.

Michael Boggs, NZME CEO says: "With more than 3.6m Kiwis tuning in, today's survey results further prove the strength of terrestrial radio, reaching highly engaged audiences up and down the country with a wide range of news, sport, music and entertainment content. This is further complemented by a strong digital audio offering, including through digital radio and podcasting. A strong, future-proofed media ecosystem that supports both commercial and public media, and traditional and digital platforms, is vital for our customers and our audiences nationwide."

Mediaworks CEO Cam Wallace says, "As we round out 2022 and head into 2023, it's fantastic to see such strong demand for commercial radio in Aotearoa. This reinforces the results from the recently released Edison Research Infinite Dial NZ study which shows the strength of AM/FM radio across all age demographics and various platforms, as well as reinforcing the need for a thriving commercial radio sector within the wider media ecosystem in New Zealand."
