Growth
from
Knowledge

Geomarketing is the analysis and visualization of
the place-based component of market and company
data. Geomarketing is therefore the basis for making
more informed business decisions.

If you have any questions, please contact us at
T +49 911 396 2600 | geomarketing@gfk.com

Error-free analyses with up-to-date geodata from GfK

Digital maps from GfK help you visualize your company data as well as data on potential. This gives you deep insights into your markets and your operational business. Our administrative and postal boundaries are available for all countries worldwide, vector-based and offer full coverage, i.e. without gaps and overlaps. They are compatible with all GIS, BI or mapping applications and ready for immediate use. Choose from over 240 map sets for accurate and error-free analyses.

Benefit from our highest quality standards:

- **Up to date and accurate**
  Regular updates ensure the high accuracy of our maps – such as the annual update of our Europe Edition in October and other continents once in 3 years.
- **Highly detailed**
  We offer the world's largest collection of digital postal and administrative maps, available down to the finest postal and administrative levels, such as 5-digit postcodes and municipalities.
- **Infinitely zoomable**
  The maps are vector-based and thus offer infinite zoom capability.
- **Comprehensive**
  Use our maps which are available down to the level of street segments and perfectly match our market data. This allows you to plan seamlessly and reliably across multiple market regions and regional levels.

Our digital maps are available in all standard map formats:

- **Available standard formats:**
  GfK RegioGraph Lay (*.lay)
  ESRI Shapefile (*.shp)
  ESRI File Geodatabase (*.gdb)
  MapInfo TAB Extended (*.tab)
  MapInfo Interchange Format (*.mif)

- **Further formats:**
  GeoJSON (*.geojson)
  TopoJSON (*.topojson)
  GeoPackage (*.gpkg)
  PostGIS Dump
  FlatGeobuf (*.fgb)

City points are categorized by number of inhabitants.

1) Denmark includes Faroe Islands and Greenland
2) France includes Monaco
3) Italy includes Vatican City State and San Marino
4) Norway includes Svalbard and Jan Mayen
5) Romania: coverage of 4-digit postcode areas included for larger cities
6) United Kingdom: postcode sectors
7) Spain includes Andorra and Gibraltar
8) Switzerland includes Liechtenstein
9) Türkiye: The city districts and settlements map is a combined map of districts and city districts and settlements.
10) United Kingdom: Postcode unit points are not available for RegioGraph
11) Ukraine: 5-digit postcodes available except Crimea and Eastern Ukraine disputed areas and minor cities
12) United Kingdom: postcode districts

Get a bonus when you order maps in the RegioGraph format! Maps ordered in the *.lay format include purchasing power data for no additional charge!

All prices are for single-user licenses (www.gfk-geomarketing.com/licensing). Prices for multiple users and map integrations upon request.
